Stories Competition

February to April 2020

WINNERS ANNOUNCED

We are happy to announce the winners of the BLOOM Stories Competition, organized in collaboration with the STEM Discovery Campaign 2020!

Between 1 February and 30 April 2020, primary and secondary school teachers of all subjects were invited to compete in different categories by organising classroom and online activities using bioeconomy, and by sharing their story about it!

The topic? Using bioeconomy as an innovative way of engaging students with current issues facing today's society.

The eighteen eligible submissions were evaluated in a two-stage judging process. First, with an initial selection by European Schoolnet, and then, the winning entries being decided by the "BLOOM Stories" jury panel.
